December 23, 2021

This is Mayor Danielle DiPaola with an update on behalf of your Governing Body. As reported at our Mayor and Council on Tuesday the borough saw 71 positive cases of Covid-19 in November. At the meeting, it was also reported that there were 83 cases in the Borough since the beginning of December and as of this afternoon, I have received updated numbers that bring us to a total of 103 cases. We are clearly in the middle of an uptick with the holiday weekend upon us. With this significant increase, I would urge you to please follow the CDC guidelines to prevent a further spread of Covid-19 throughout our community. If you are feeling sick, please stay at home, wear a mask, wash your hands frequently, and social distance. I hope that with these practices we will be able to once again surround ourselves with those we love.

In closing, I want to wish everyone a safe healthy, and very Merry Christmas. God Bless you and God Bless Emerson.

Sincerely,

Danielle DiPaola
Mayor
